oonava.

Tools & subscriptions breakdown for Kelly · prepared by Samad & Delight

Everything the website, automations and demo run on, what's free now, and what we'll pay once clients are live. Prices are approximate list prices; please confirm on each site before paying, as they change and some are billed in USD.

---

1. Needed now (launch)

Tool	What it's for	Plan	Cost / month
Domain (oonava.com)	Website and email address	Hostinger	Already paid (~€1–2/mo equivalent)
Google Workspace	Company email (hello@, team inboxes), "Sign in with Google" for tools	Starter via Hostinger	~£6–7 per user
Vercel	Hosts the website and automation backend	Hobby	Free
GitHub	Stores the code	Free	Free
Gemini API (Google AI Studio)	AI that reads enquiries, scores leads, writes replies	Pay as you go	~€0–5 at current volume
Resend	Sends emails from hello@oonava.com (replies, follow-ups)	Free	Free up to 3,000 emails/mo
Airtable	CRM for leads	Free	Free (1,000 records per base)
Make	No-code automations (Delight)	Free	Free (1,000 operations/mo)
CallMeBot	WhatsApp alerts for new leads	Free	Free
Calendly	Clients book calls directly from the website	Free	Free (1 event type)
Total at launch			**≈ €10–25/month (mostly Workspace users)**

---

2. When clients are live (upgrade only when needed)

Tool	Why we'd upgrade	Plan	Cost / month
Vercel	Commercial use and more capacity	Pro	~$20
Airtable	More records, automations, Interfaces for the team	Team	~$20 per editor
Make	More operations for client workflows	Core	~$10
Calendly	Booking webhook so bookings update the CRM automatically	Standard	~$10–12
Supabase	Database for custom client systems	Pro	~$25 (free until needed)
Gemini / AI usage	Grows with client volume	Pay as you go	~€10–50

Estimated total once live	**≈ €100–190/month**

3. Notes

- **Client-specific tools** (their AI usage, their Make/Airtable plans, WhatsApp fees) are billed to the **client's own accounts**, as stated on our pricing page, not to Oonava.
- All accounts are created with the **company email**, so the company owns them.
- We'll tell you before anything needs a paid upgrade.

Security: please share logins through a password manager (e.g. Bitwarden, free), not WhatsApp, and turn on 2-step verification for Hostinger, Google Workspace and Vercel.
